

An architectural rendering of a school campus. In the background, a large, modern school building with a brown roof and light-colored walls is visible. The words "WOODLAND HIGH SCHOOL" are faintly visible on the building's facade. In the foreground, there is a paved courtyard area with several groups of people, likely students, walking and sitting. There are some small trees and greenery around the courtyard. A road with a crosswalk and a few cars is visible at the bottom of the image. The sky is blue with some white clouds.

Facilities and Safety Report
May 2025

Facilities/Safety Report

- D1 grant Study and Survey work is near completion.
- Seismic assessment is under way of all facilities.
- Summer work planning is nearly complete. We have hired three short term laborers for the summer.
- Summer contract work is planned and we're receiving bids for roofing, parking lot painting, and tree pruning.
- Maintenance and Grounds are working on end of year aesthetics for graduation and other ceremonies.
- The new portable at North fork is installed. Last steps are fire alarm installation and final occupancy permit. These should be complete by the end of the month.
- We've had some changes in custodial staff and made a new hire. Troy Maynard is our new swing shift Custodian at WMS. If you see him around, please welcome him.
- The Admin team is working through a safety tabletop exercise around a train derailment scenario.
- Safety team is exploring the implementation of an emergency alert system platform that uses district devices and cell phones.
